Aaron "Heatbox" Heaton (aka The One Man Entertainment System), is teaming up with longtime friend Mark Joseph to put on a dual vinyl album release at the Fitzgerald Theater November 18th, 2023!

Special guests include Melvin Seals of JGB and Mark Murphy of Wookiefoot.

"Heatbox is actually a master of the art of musical humor. And the art is not to assume that the jokes on their own will be enough to sell the songs. (Hilarious & Epically Legendary) is an album full of cool music, deftly wrought and expertly delivered, that just happens to be the music vehicle for some clever imagery and astute observations, respectful sideswipes, and gentle parody. And musically, it works so well because to parody something, you must fully understand it and be good enough to replicate it to such humorous ends."

- The Big Takeover

The concert will be filmed and turned into a concert/movie. Come and be a part of this time capsule of the Twin Cities music scene!
